Body-Guard®
Formulated by Dr. James L. Wilson

First Responder Immune Support*

Body-Guard® is a gentle but reliably efficacious formula designed to provide immediate support to the immune response along the body's front line defenses.* By promoting a healthy microbial balance in the mucus membranes lining the respiratory, digestive and urogenital tracts, this liquid tincture can be an invaluable aid to the immune system's natural anti-pathogenic activity.* Intended for short-term use (5-7 days), Body-Guard, with its unique combination of colloidal silver and 16 potent botanicals selected for their wide range of dependable immune enhancing properties, can make a decisive difference to maintaining health when used promptly.* It enhances immune function in the following ways:*

**Supports Immune System Microbial Management** *

**Lomatium dissectum**
- Shown to help moderate cytopathic effects of rotavirus ¹

**Thuja occidentalis, Echinacea purpurea (Purple coneflower)**
- Promoted immune system inhibition of influenza A pathology in vivo, decreasing lung consolidation, and enhancing survival rate and mean survival time ²
- Demonstrated efficacy in promoting reduced time to improvement and overall duration of common cold in human subjects ³, ⁴, ⁵

**Uncaria tomentosa (Cat's claw)**
- Promoted inhibition of dengue virus, vesicular stomatitis virus, a rhabdovirus and rhinovirus ⁶, ⁷

**Uncaria tomentosa, Thymus vulgaris (Thyme), Origanum vulgare (Oregano), Artemisia absinthium (Wormwood)**
- Promoted inhibition of Candida ⁸, ⁹, ¹⁰, ¹¹, ¹²

**Promotes Reduction of Pathogens**

**Colloidal Silver, Grapefruit seed extract**
- Exhibited cytotoxic effects on a wide variety of bacteria, in vitro ¹³, ¹⁴

**Origanum vulgare**
- Among 10 essential oils, oregano exhibited the highest and broadest inhibitory activity on 10 pathogenic bacteria, in vitro ¹⁵
- Multiple drug-resistant E. coli ¹⁶, fluconazole-resistant Candida ¹⁷, and antibiotic resistant Campylobacter jejuni ¹⁸ displayed in vitro sensitivity to oregano oil.

**Tabebuia avellanedae**
- Promoted inhibition of growth of Methicillin resistant and sensitive Staph aureus 10 and vancomycin-resistant Staph, in vitro ¹⁹
- Demonstrated one of the highest rates of antifungal activity among 14 medicinal plants tested against 11 fungal strains, in vitro ²⁰

**Thymus vulgaris**
- Promoted inhibition of MRSA, and a number of gram positive and gram negative bacteria, in vitro ²¹

**Capsicum annum (Red chili pepper)**
- Peptide and saponin isolates demonstrated potent anti-Candidal and fungicidal effects, in vitro ²², ²³

**Juglans nigra (Black walnut)**
- Induced oxidative stress on Toxoplasma gondii to a degree potentially toxic to the parasite, in vitro ²⁴

**Modulates Cytokines for Immune Support**

**Echinacea purpurea**
- Demonstrated ability to influence cytokine production consistent with an antiviral effect ²⁵, ²⁶ and to enhance macrophage phagocytosis ²⁷

**Artemisia absinthium**
- Helped suppress pro-inflammatory cytokine TNF-alpha and favorably affect clinical symptoms in Crohn's patients ²⁸
- Helped stimulate T-helper 1 lymphocytes (Th1) response and nitric oxide (NO) production by murine macrophages ²⁹

**Capsicum annum, Thuja occidentalis**
- Helped favorably modulate cytokine production and T cell immune responses ³⁰, ³¹

**Suggested Use**

Take 10-15 drops in non-citrus juice or water, on an empty stomach, 4 times daily (upon rising, mid-morning, mid-afternoon & bedtime) for 7-10 days, or as determined to be optimal on an individual basis. Can be repeated, if desired. To enhance effectiveness in intestines, take 1-3 Squeaky-Clean® 30 minutes after Body-Guard, morning and evening.*
